PROFESSIONAL SUMMARY

Second-year Data Engineering student at the Higher School of Technology (EST), Fez, with a foundation in programming, databases, data analysis, and web development. Practical experience developing an AI-powered educational web application using JavaScript, Node.js, Express, and the Gemini API. Combines technical skills with leadership, project management, and creative problem-solving through university leadership, independent digital projects, and freelance graphic design. Seeking opportunities in data engineering, data analytics, and artificial intelligence.

EDUCATION

Higher School of Technology (EST), Fez, Morocco — University Diploma of Technology (DUT) in Data Engineering | 2025–Present

- First-year studies: Programming, databases, computer systems, networking, and data analysis.
- Second-year studies: Advanced databases, data warehousing, data lakes, big data, distributed programming, data pipelines, DataOps, statistics, and machine learning.

Moroccan Baccalaureate — High School Diploma | 2025 — Morocco; graduated with Honors (Mention Bien).

TECHNICAL SKILLS

Programming: Python, Java, SQL, JavaScript, HTML, CSS
Databases: Relational databases, database design, SQL querying, MySQL
Data Analytics & BI: Microsoft Excel, Power BI, SPSS, KNIME
Big Data: Apache Spark, Apache Kafka (academic coursework)
AI & Web Development: Gemini API, Node.js, Express.js, REST APIs
Scientific Computing: MATLAB **Tools:** Git, GitHub, Visual Studio Code, Eclipse, Linux

PROFESSIONAL EXPERIENCE

Web Development & AI Intern — ArtiWeb | Fez, Morocco | July–August 2026

- Developed StudyRoomAI, an AI-powered educational web application that generates revision sheets and quizzes with corrections and scores.
- Built interactive user interfaces using HTML, CSS, and JavaScript; implemented server-side functionality using Node.js and Express, integrating the Gemini API.
- Worked on API communication, environment configuration, and PDF export functionality using html2pdf.js.

Freelance Graphic Designer — Independent | 2022–Present

- Created logos, visual identities, social media graphics, sports posters, YouTube thumbnails, and branding concepts.
- Developed visual communication materials tailored to client requirements and digital platforms; managed creative projects from concepts to final deliverables.

LEADERSHIP & PROJECTS

President & Graphic Designer — Rotaract EST Fès | 2025–Present

- Lead a university club focused on humanitarian initiatives, community engagement, and social activities; contribute to activity planning, event coordination, team collaboration, and club communication.
- Design promotional materials and maintain the club’s visual identity.

Founder & Content Creator — Moroccan Basketball Revolution (MBR) | 2024–Present

- Founded and developed a digital media project promoting Moroccan basketball culture, local teams, news, and community engagement.
- Manage social media content, visual branding, graphic design, and sports-related creative projects; develop content strategies and visual assets to strengthen audience engagement.

StudyRoomAI — AI-Powered Learning Application | 2026

- Designed and developed an application that generates study materials and interactive quizzes from user-provided topics, with AI integration, quiz correction, scoring, and PDF export.
